Tool Storage Underhood

LIGHTING CATEGORIES

- ARTICULATING:** Designed for general application—can be handheld or magnetically mounted; shapes vary greatly with large or small LED elements
- FLASHLIGHT:** Spotlight style light
- FLOODLIGHT:** Centers around wide area/work illumination flood lighting
- HEADLAMP:** Designed to be attached to the head, neck, helmet, or hat
- PEN LIGHT:** Typically no longer than 6.5" between .5" & 1" wide and has a lighting element/end no larger than .75" in diameter; has a clip
- PROJECT LIGHT:** Designed for operation in a small, confined space, either handheld or attached to the work area; includes a magnetic attachment point
- SPECIALTY:** Designed for niche application or cannot be categorized anywhere else
- TOOL STORAGE:** Designed to be utilized with existing Tool Storage solutions
- UNDERHOOD:** Designed for automotive under hood applications; comes with or is able to attach to an under hood bracket; can be LED or bulb; not intended to be handheld

BATTERIES/CHARGERS

Rechargeable Battery

ECRECHRGBATT

- Approximately 4,000 charging cycles
- Built-in 2,500 mAh battery cell
- Sealed and solid material with good performance, impact and chemical resistance
- Integrated USB-C port for charging

Battery Charging Base

ECRECHRGBASE

- Charge up to three batteries simultaneously (for use only with Snap-on® ECRECHRGBATT rechargeable batteries)
- Charging indicators on surface make it easy to see when batteries are fully charged
- USB port charges phones and small electronic devices

*Batteries not included

300 Lumen Neck Light with Removable Lights

- Place on neck or head for hands-free use
- Lights are dimmable and independently adjustable
- Each light pivots for the perfect lighting focus

275 Lumen Magnetically Mountable Headlamp

ECHDB022

- Slim and rugged; allows for a comfortable light that can be used in multiple applications or environments
- Light and battery are built into one package and secured to an adjustable headband by a uniquely designed clip mechanism
- Easily remove the light from its band and attach it to other locations with built-in magnet
- IP65 rating allows for exposure to water and dust in the toughest environments
- Rechargeable via a standard USB-C connection for ease of use

ARTICULATING

14.4 V MicroLithium 500 Lumen Cordless Angular Light

CTLAR761

- Built-in hook, (2) magnets and tether point provide maximum flexibility when attaching light to work site
- Battery gauge displays power remaining

400 Lumen Articulating Light with Charging Base

● Red ECARC041 ● Green ECARC041G ● Orange ECARC041O

- 400 lm light, with a UV spotlight at the tip specifically designed for leak detection
- Individual buttons for each light element to avoid cycling through modes for the desired LED illumination
- Charging base includes USB port to charge phones and other small electronics

600-800 Lumen Dual-Sided Flex Light

● Red ECARD062 ● Green ECARD062G ● Orange ECARD062O

- Easily switch between single and dual lighting
- 270° folding design, with multiple magnets for the ultimate in flexible positioning

550 Lumen Auto-Focus Light

ECARF052

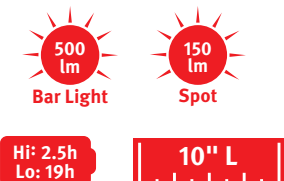

- Handheld unit with integrated dual light source provide flood lighting and spotlighting
- Two switches for individual mode setting: manual or auto-focus mode
- Lighting output adjusts in manual mode by pressing and holding the switch; light flashes once at highest and lowest brightness levels
- Lighting output intelligently adjusts in auto-focus mode, detecting the distance change from object to light source within 40 cm; automatic highest lighting output over 40 cm
- Dual-angle rotation design enables multiple lighting beam

500 Lumen Angular Light

● Red ECARH058
● Green ECARH058G
● Orange ECARH058O

- 360° rotatable hook
- Rechargeable battery is good for approximately 4,000 charging cycles
- High quality COB source
- Robust overmold design
- USB-C port for battery charging

1,200 Lumen Rechargeable Battery Mini Worklight

ECARK128

- Overmold design for ultra comfort
- Cutout on the head reminds user the light is on when placed face down
- Can be charged via USB-C port on the batteries or on the light and also via charging base (ECRECHRGBASE sold separately)

ARTICULATING

600 Lumen Rechargeable Battery Flex Light

● Red ECARG068 ● Green ECARG068G ● Orange ECARG0680

- High-quality COB source
- Overmold design for firm grip
- USB-C port for battery charging

FLASHLIGHT

Roadside Hazard Light

ECFLF034

- Two-in-one lamp: flashlight and flare light
- Two-position switch independently controls power for flashlight and flare light
- Lights on both sides can work at the same time
- Powered by (3) AA batteries (included)
- Metal clip design for hands-free use
- Environmental bag for packing
- IP65-rated for resistance to water and dust infiltration

600 Lumen Pivoting Flashlight

- Red ECFLH062 ● Orange ECFLH0620
- Green ECFLH062G ● Black ECFLH062BLK

- Rechargeable, with 110° pivoting head and 180° rotating base for more flexibility
- Magnetic handle can be used to hold nuts and bolts
- IP65 water and dust resistant

4h

800 Lumen Aluminum Flashlight

- Red ECFLI082R ● Orange ECFLI0820
- Green ECFLI082G ● Black ECFLI082B

- Pull the head out for focused beam and return for flood beam
- Hidden USB-C charging port—twist the collet to expose for charging
- High quality anodized aluminum housing for durability and impact resistance
- Includes removable magnetic boots for hands-free use on metal surfaces
- Built-in gauge shows battery charge

WIRELESS RECHARGE SYSTEM

Wireless Charging Base

ECFLPRA0

- Wireless dynamic charging system allows partial recharging
- Only works with Snap-on® wireless lamps and accessories
- Recharges using the bi-directional USB-C connection
- Equipped with built-in magnets
- Charge external devices with the built-in USB charging port, output: DC 5 V 1 A

Wireless Charging Lighting System

ECFLPRA350

- Wireless dynamic charging system allows recharging of either light separately, no need to charge at the same time
- Wireless charging system includes ECFLD030 Wireless Charge Flashlight, ECPRC050 Wireless Charge Project Light and ECFLPRA0 Wireless Charging Base
- Only works with Snap-on® wireless lights and accessories

Qi Charging Base

ECQIBASE

- Qi wireless charge base, charge for all Snap-on® wireless lights, can charge a third device that is in compliance with Qi agreements, such as mobile phone
- Pack delivered with 5 V 2 A charger, Input: AC100-240 V, Output: DC5 V 2 A

Wireless Dual Conversion Light

ECARE068

ECARE068KT

- Overmold design for anti-skidding
- Dimmable switch with memory function on the main light; press and hold to activate
- Switch freely between single lighting and dual lighting
- Most reliable and safest design—only the outside light can be turned on when the lamp is folded

ECARE068

ECARE068KT

300 Lumen Wireless-Charge Penlight

- Red ECPNF038
- Green ECPNF038G
- Orange ECPNF038O
- Black ECPNF038B

- Flexible pocket clip can be slipped in and out
- Overmold design provides grip
- IP65-rated for resistance to water and dust
- Can also be charged via USB-C charger (included)

Wireless Charging 500 Lumen Project Light

ECPRC050

- IP65 rated for water and dust resistance
- Overmold design for anti-skidding
- Onboard battery “fuel gauge” easily relays how much power is remaining

Wireless Charging 300 Lumen Flashlight

ECFLD030

- IP65-rated for water and dust resistance
- Overmold design for anti-skidding
- Onboard battery fuel gauge easily informs the user how much power is remaining

Active Cooling Pocket Light

- **Red** ECSPE102
- **Green** ECSPE102G
- **Orange** ECSPE102O

- Active thermal management keeps internal components cool
- Gauge displays remaining power
- Extruded aluminum body
- USB-C charging port

450 Lumen Clip Light

- **Red** ECSPF032
- **Green** ECSPF032G
- **Orange** ECSPF032O
- **Black** ECSPF032B

- 360° rotating head and 180° swivel clip
- Magnets on the clip provide additional mounting options
- Spring-loaded clamping arms

2,700 Lumen Combo Pocket Lights Kit

- **Red** ECSPH271
- **Green** ECSPH271G
- **Orange** ECSPH271O

- Multifunctional combo light—can be used together as a floodlight or three individual project lights
- Dual-charge system allows charging via the combo base, or individually with USB-C port
- Three-light combo: 2,700 lm on high, 270 lm on low; individual lights are 900 lm on high, 90 lm on low

1,500 Lumen Clamping Worklight

ECSPG152

- Non-marring wide clamping arm secures the light to most surfaces for hands-free use
- Prop up the light when you don't have anything to clamp it onto
- Folds flat for easy storage

1,000 Lumen Slim Flexible Work Light

ECSPK108

- Folds for easy storage
- Two switches control the light; one for single lighting and the other for triple lighting
- Cut out on the face lets light shine through when placed face down to alert end user that light is on

UNDERHOOD

1,200 Lumen Underhood Clamp Light

ECUHC102

- Multiple articulation points mean the user can point the light precisely where it is needed
- Non-scratching pads on the clamp mechanism allow for use even on the newest vehicles
- Bi-directional USB-C, battery gauge and charging indicator for the latest in charging technology
